

# ENTERPRISE TRANSFORMATION, PLATFORMS & AI

**EXECUTIVE LEADER**

**INTERNATIONAL SPEAKER**

**BOARD MEMBER**

Luboslava Uram is an international executive leading technology, operations, and large-scale transformation in regulated environments.

As Chief Operating & Technology Officer at Solvd Group (Allianz Group), she is responsible for scaling enterprise platforms, integrating organizations after M&A, and embedding AI into insurance operations across more than 45 countries.

She speaks from hands-on responsibility - about what actually works when organizations modernize core platforms, integrate acquisitions, and move from AI ambition to operational reality.

Her focus is not technology for its own sake, but how platforms, AI, and operating models come together to deliver performance at scale.

## SPEAKING TOPICS

- 1 Platform-Based Transformation at Scale
- 2 AI in Insurance: From Promise to Operational Impact
- 3 Leading Post-M&A Transformation in Tech & Operations
- 4 Technology and Operations Must Transform Together
- 5 What Leaders Underestimate in Large-Scale Transformation

## KEY AREAS

# LEADING PLATFORMS, AI & OPERATIONS THROUGH TRANSFORMATION

RESULT-ORIENTED

PERFORMANCE-DRIVEN

FIRST-HAND

## SPEAKING TOPICS IN DETAIL

### 1 Platform-Based Transformation at Scale

How shared platforms enable product scaling, faster integration, and operational consistency across markets – and where platform strategies fail in practice.

### 2 AI in Insurance: From Promise to Operational Impact

How AI is embedded into claims and insurance operations, what value it realistically delivers, and why AI only works when platforms and processes are ready.

### 3 Leading Post-M&A Transformation in Tech & Operations

What actually happens after the deal is done: integrating platforms, teams, and operating models without breaking delivery or losing momentum.

### 4 Technology and Operations Must Transform Together

Why separating tech transformation from operations creates friction - and how leaders can redesign both in parallel to achieve real results.

### 5 What Leaders Underestimate in Large-Scale Transformation

First-hand lessons on decision-making, trade-offs, and people dynamics when scaling platforms, integrating organizations, and modernizing core systems.

## BENEFITS FOR THE AUDIENCE

- ✓ First-hand insight into platform decisions that scale (& those that don't)
- ✓ Real lessons from post-M&A integration in tech & operations
- ✓ How AI creates value inside insurance operations, not just in pilots
- ✓ What leaders underestimate when transforming both technology & organizations
- ✓ How to keep execution stable while everything else is changing

## AUDIENCE
